Introducing the DBEGoodfaith service

DBE Goodfaith Inc. is a California-based outreach assistance firm, providing a web-based service solution for firms seeking minority, disadvantaged and disabled veteran business participation. We also offer information on projects requiring minority participation. These advertisements can be viewed at no charge and are categorized by geography, certifying agency, trade and minority certification.

DBE Goodfaith helps and assists businesses in complying with State and local governmental agencies outreach requirement programs. Our service will alleviate the burden for our customers of placing ads, emailing, faxing and telephoning as part of solicitations for the Good Faith Outreach program and allowing them to concentrate on the business of providing their competitive bid on projects. We maintain a database of all registered DBE firms in California and Nevada.

For DBEs: How to use our services

We offer two online publications for registered disadvantaged businesses to use Minority Focus ads on our main website and the Trade Focus On-line Journal. Both of these feature ads for

DBE/DVBE/WBE/SBE/MBE placement. DBE Goodfaith also may fax and/or call disadvantaged and minority businesses directly for positions offered by our clients.

Any business interested in working on any of the projects advertised on our website should directly call or fax the contact person listed on the ad prior to the bid due date.

We will be sending out newsletters periodically throughout the year as part of our outreach program to disadvantaged, veteran and minority businesses in an effort

to educate the community. We will also send out information on current projects posted on our website to registered DBEs in California and Nevada.

Please go to our website for more information about our services. Thank you for reading our newsletter. Let us know if you have any suggestions for improvements. We would also like to keep our database current, please provide us with your current information (phone, fax, email and mailing address) so that we may provide that information to the businesses that are looking for your services.
